이력

#1 - 2023/11/08 11:50 - Mai Van Binh

about this issue, we use two services:
- Xinapse: uses a synchronization process so we can know the exact end date.
- deepbrain: uses asynchronous process but there is no callback so we can't know exactly when the task is completed
Do you want to solve this problem with xinapse service only?

#2 - 2023/11/08 16:46 - Phạm Thanh Tú

- 진척도를(를) 0에서 100(으)로 변경되었습니다.

#3 - 2023/11/08 17:47 - 김 다혜

- 상태를(를) 신규(New)에서 완료(Completed)(으)로 변경되었습니다.
